

- **Self-training:** Watched YouTube tutorials and read recipes online.
- **Tests:** Tried cooking different dishes, experimenting with ingredients and techniques.
- **Corrections:** Adjusted seasoning and cooking times based on taste tests and family feedback.

Comparison with active pedagogy:

- **Project work:** Cooking actual meals.
- **Autonomy:** Selected recipes and improvised ingredients independently.
- **Feedback:** Received feedback from family, which helped improve skills.

Comparison with active pedagogy:

- **Project work:** Created real websites.
- **Autonomy:** Learned at own pace, searched solutions independently.
- **Feedback:** Used peer forums and self-evaluation.
